

CERTIFICATION ISSUED: 112

WINMAGIC CERTIFIED SECURE **PHISON**

AWARDED TO _____

WinMagic has tested: **E18-BiCS5**

With Firmware Version(s): **EIFM51.3**

And Certifies it to be Compatible with:

SecureDoc Enterprise Server (SES)

Version: **9.0 SR4** with support for TCG Opal 2.01 management

General Limitations and Notes:

Windows 11 tests were conducted in a native UEFI BIOS boot environment with PBU and/or PBLU. Due to the NVMe SCSI translation protocol, the firmware version listed here may appear differently in Windows. The EIFM51.3 Firmware version does not support the optional TCG Hardware Reset feature in SecureDoc. The performance of this drive when encrypted can be noticeably slower depending on your setup. *PBU is required for these devices.
