

CERTIFICATION ISSUED: 133

WINMAGIC CERTIFIED SECURE **PHISON**

AWARDED TO _____

WinMagic has tested: **E26-B58R**

With Firmware Version(s): **HPE72T01**

And Certifies it to be Compatible with:

SecureDoc Enterprise Server (SES)

Version: **9.1 HF3** with support for TCG Opal 2.01 management

General Limitations and Notes:

Windows 11 tests were conducted in a native UEFI BIOS boot environment with PBU and/or PBLU.

Due to the NVMe SCSI translation protocol, the firmware version listed here may appear differently in Windows.

The Lenovo ThinkStation P340 is not compatible with SecureDoc Software Encryption.

* The Phison E26-B58R SED is a Desktop-only SED and makes use of an integrated Heat Sink and Fan Assembly (Requires 4-pin motherboard fan header).

** Please remove the included Heat Sink and Fan Assembly before installing your E26-B58R SSD into the Dell Precision 5860 Tower.

*** PBLU is required for this device
